Key Award

"4-H taught me what responsibility looks like—not just doing the work, but showing up for others, being accountable, and taking pride in every step. That lesson followed me far beyond the barn.

It gave me the confidence to take on challenges in the world of science and technology, eventually working alongside researchers from Harvard and MIT on quantum computing projects—research that has since moved forward with the Department of Defense. What I learned in 4-H made me believe I belonged in those rooms—that curiosity, commitment, and character matter, no matter where you come from."

- Dylan T., 2025 Key Award Recipient

Dakota County 4-H Empowers Youth to be Changemakers and Community Leaders
